UPCOMING TRAINING CLASSES

Essentials of Project Scheduling

This 2-day Beginner's Schedule Training Module utilizes ClearPlan's proprietary "Quadcopter" dataset to illustrate fundamental concepts to Program Planning and Microsoft Project Scheduling. As the course progresses, students will be instructed on how to create a schedule that meets industry standards for scheduling best practices and expectations for data product compliance in an integrated program management environment.

Feb 18-19 | Huntsville, AL

Seats Available

Apr 21-22 | Huntsville, AL

EVMS CAM Certification

Our 2-day CAM Certification course is essential for all new CAMs and a great resource to prepare CAMs for an upcoming IBR or Surveillance review. Each module is designed to equip CAMs for their responsibilities within an Earned Value Management System. This course has plenty of real-world examples and hands-on exercises, and CAM tests are administered at the end of each module.

Apr 1-2 | Tucson, AZ

Deltek Cobra 8.X for Analysts

This HANDS-ON, 2-day Deltek Cobra Training Module is specifically designed for analysts and end users. Utilizing ClearPlan's proprietary "Quadcopter" dataset, students will learn how to create and manage an EVMS compliant project with Deltek Cobra 8.x. Students will focus on establishing the project architecture, building / applying resources and rates, integrating schedule and accounting data, and utilizing multiple cost classes.
